Hi Jaime,

Could we get a list of all the categories that the partners fall under? And all the types of information per partner, and per booking you would like to keep?

Thank you,
Lia

Oct 20

Hey there,

Attached is a document with the information we have on a partner, as well as the category of service they are providing.

If this isn't what you were looking for, please let me know and I'll try again.

Thanks,
Jaime

Oct 3

Hi Jaime,

How are you? I hope you enjoyed your vacation! After our meeting with Nobarun we were able to come up with a list of specifications that we believe you are looking for in the revamped system. This week we need to confirm with you if they are in fact what you are looking for, and the priorities of each task. I understand you have two groups to work with and communication with every member may be a hassle, so if it is alright with you I will be acting as the communication liaison between yourself and my group.

Ideally I would like to have a chance to meet with you this weekend in person if possible at a mutually convenient location over coffee (my treat!) to discuss the particulars of the project if you have 30 mins to spare. Anything near any of the subway stops works for me, I live downtown (near the Eaton's centre) perhaps if you were thinking of coming into the city to shop? Although Nobarun has been very helpful, our professor/TA are on us to try and get an in person meeting since we haven't officially met you yet. But if scheduling is difficult, a phone conversation definitely suffices, but I will have to ask you for written documentation saying that our team has tried to make arrangements but it has been unsuccessful for a variety of reasons.

Please let me know if you have any concerns! I will follow up with a phone call later today if we are unable to arrange a meeting time via e-mail. Thank you so much for your patience!

Sincerely,

Lia Zheng

It would be great to meet with you. The only problem is that I can't show you anything on our current system because it only works when we're in Storefront's building. Let me know if you want to take any screen shots for you.

Saturday or Sunday is fine. Can we meet on the Danforth at Tim's? It's between Chester and Pape stations. (<http://www.timhortons.com/ca/locator/storedirections.html?id=102012>). Any time after 12pm is ok.

Please let me know if that works. Thanks very much.
Jaime

Thanks so much for the quick reply! Tim's at Danforth is perfect, is 1PM on Saturday ok? (2 of my team members will be coming as well, I hope that is not too overwhelming for you) Nobarun already went through the system for us so we have a good idea of the old system, but we'd like to clarify what you would like to improve/change for the new system. I can be reached at 416 705 4838 if you need to get in touch with me the day of.
