Tae	<ul style="list-style-type: none"><li>- 5 courses</li><li>- wants to pass</li></ul>
Jeff	<ul style="list-style-type: none"><li>- 5 courses - part time job</li><li>- aiming for 80</li></ul>

## Gameplan

- decided on Storefront, Citizen Bridge, and TABS as the top choices
- decided to avoid ACORN

## E-mail Correspondences

[Sept 18] - Aashni

Hey Team Amajuak!

So I'm super excited to be working with all of you, and to start working on our project for 301! We kinda only have today (Wednesday) to go over all the details etc. so that we can come up with a "game plan" for the bidding war on Thursday morning.

On Wednesdays, I only have class from 1-2, and should be free for most of the rest of the day. What time are you guys free/available to meet so that we can try and get this moving.

Thanks

Aashni

-----

[Sept 18] - Lia

3-6pm I'm available. Let's try to have a group meeting within that time today everyone who can come. (Non democratic way, hard to appeal to 6 people esp within such a short time frame.) We'll take some meeting notes and email it if the git repos isn't up yet. Whomever isn't able to show can email a contribution on their favorite projects/least liked and their motivation for the labeling. Also it would be great if everyone could include email where they are commuting from, times they are available to meet in person weekly, and perhaps the relevant experience they bring to the group outside of the pre-reqs.

My info:

Live around Yonge and Dundas, can come to campus whenever.

Available:

MWRF 3-5

T1-5

Weekends flexible.

Have done group work and UX experience testing in CSC318, above 85 on group assignments all throughout the course. Great with group management, communication, and all those typically feminine traits.

The storefront project from yesterday appeals to me because it starts from scratch, and all work is done within a bubble so we can make all the design choices to suit our needs. And the citizen bridge seems like a project where we can learn a lot from existing people from the industry. Definitely NOT the ultrasound project, although the concept is great I'm not sure any work done would make any sort of impact as the proj seems very constrained and dependent on their success.

-----

[Sept 18] - Winston

Hey Everyone,

Today I will be free from 1PM-5PM. I guess another option (if everyone is a morning person) is to meet up before class on Thursday, or to have something on Google Hangout/Team Viewer tonight.

About me:

Location:

I commute from Mississauga

Times I am available to meet up:

M: 11-12, 1-5

T: 11-1, 3+

W: 11-12, 1-5

R: 3-5

F: 5/6+

Weekends: flexible

Projects I'm most interesting in:

CitizenBridge - Seems like a great learning opportunity especially since the product champions have a lot of experience.

Tabs On Toronto - I am interested in the mobile app development, and since an Android app was requested for this project it is an opportunity I would personally like to pursue.

Cultural Hotspot - very open ended, seems like it will be fun

Projects I'm opposed to:

ACORN Canada

Election Tycoon

Both these projects are not very clear and the product champions are not very specific with what they wanted out of these.

Relevant experience:

To be honest, not a lot... But I

have had some exposure to the iOS SDK, and have developed an app for the BlackBerry10 platform (although they might not be relevant in the near future...)

I look forward to working with you all. This should be a fun term!

Regards,

Winston

-----

[Sept 18] - Ying

Hey guys,

I am available today at 2-5,

Available:

M1-3, T after 3, w1-5, F after 1

Weekends flexible

Looking forward to meet you guys!

YingYu Chang

-----

[Sept 18] - Jeff

Hey everyone,

I hate to say that I don't have any time to meet up today as I unfortunately have to work all afternoon.

Times I am available (excluding today):

M11-3

W11-4

R after 3

F 11-3, after 4

all day Saturdays

The East Scarborough Storefront and Citizen Bridge projects appeal to me, but I am of course willing to work on any of the projects.

Looking forward to meeting everyone!

-----

[Sept 18] - Tae

GOOD:

ACORN Canada Healthy Homes Mapping Project (I like this one most.)

Enabling Ultrasound in Remote Maternal Health Care - Focus on Nepal

(This one sounds good too.)

North York Senior's Centre

East Scarborough Storefront

NO GOOD:

CitizenBridge

Election Tycoon

TABS Toronto

Invstg8.net

Cultural Hotspot

Basically I really don't wanna do anything related to politics/journalism..
